Presidential Ponderings

I love the fall. There is no greater season in South Dakota. When people ask why do I live up north where it is cold in the winter and hot in the summer, fall is one of the biggest reasons I give. Whether it is the harvest moon, the cold nights and warm day or the pheasants, there is little that beats the fall.

A committee of members was formed last year to revise the constitution. A main reason was to make sure that the math and science presidents' terms don't end the same year as we have had some trouble the past few years with transitions. It is time for a vote.

There will be a general membership meeting on December 8 at 2:00 pm at Deubrook High School in White, South Dakota for the purpose of approving the new constitution. If you have any comments or questions about the proposed constitution, please feel free to email me at William.gripentrog@k12.sd.us

Don't forget to schedule your calendars to attend the annual professional development conference in Huron February 7-9. We will also have a general business meeting on Friday of the conference. Remember, our organization is only as strong as the involvement of all the members. We need your input. Looking forward to seeing you in Huron Feb 7-9 if not on December 8!
